HELP

1

#' Create a package or project

#'

#' @description

#' These functions create an R project:

#' * `create\_package()` creates an R package

#' * `create\_project()` creates a non-package project, i.e. a data analysis

#' project

#'

#' Both functions can be called on an existing project; you will be asked before

#' any existing files are changed.
